

# 72V Electric Three-Wheel Motorcycle with Reverse

This electric three-wheel motorcycle is equipped with a 72V motor and reverse function. The design provides increased stability compared to two-wheeled motorcycles, making it suitable for various skill levels.

## ADDITIONAL IMAGES

## Overview

### Robust Electric Three-Wheeler

The V28 is a powerful three-wheel electric motorcycle designed specifically for adult riders, offering a blend of stability, maneuverability, and performance. Its unique three-wheel configuration provides enhanced balance compared to traditional motorcycles, making it a secure choice for urban commuting and recreational use. With a powerful 72V electrical system and versatile motor options, it ensures efficient power delivery and reliable acceleration across various terrains.

## Performance

### Key Performance Indicators

**3000 W**  
Max Power

**70 km/h**  
Max Speed

**80 km**  
Range

**190 N.m**  
Max Torque

## Technical Specifications

### Vehicle Dimensions

Metric	Value
Dimensions (L*W*H)	1810 x 800 x 1185 mm
Wheelbase	1300 mm
Seat Height	750 mm
Net Weight	97.5 kg

## Battery & Power

### Battery Details

- Capacity: 72V 40Ah Lithium
- Charging time: Approx. 8 hours
- Cycle life: 800+ cycles

## Safety & Features

### Lighting

LED Headlight (8W+8W) • Wraparound LED Taillight • High-concentration Turn Signals

### Standards & Compliance

EEC, CE, ISO 9001, CCC
