

75A 120VAC 3-Pole AC Contactor

This three-pole AC contactor is designed for HVAC and refrigeration applications. It features a 75A current rating at 120VAC.

Product Overview

High-Performance 3-Pole AC Contactor

This 3-pole AC contactor is engineered for demanding HVAC&R applications, ensuring reliable switching performance in air conditioning, refrigeration, and heating systems. It features a robust design with dust-free internal construction and a universal metal mounting plate for easy installation and replacement. With a proven electrical life of up to 250,000 cycles and a mechanical life of 1,000,000 cycles, this contactor offers long-term durability and consistent operation.

Electrical Ratings

Key Electrical Ratings

75 A Current Rating	120 VAC Coil Voltage	3 Poles
-------------------------------	--------------------------------	-------------------

Electrical Contact Ratings	20 to 90 Amps
----------------------------	---------------

Coil Voltage Range	24 to 600 VAC
--------------------	---------------

Performance & Durability

Life Cycle Ratings

- Electrical Life: Tested to 250,000 cycles
- Mechanical Life: Tested to 1,000,000 cycles

Compliance Standards	ARI 780/790
----------------------	-------------

Installation & Design

Design Features

Universal metal mounting plate • Dust-free internal construction • Flexible termination options • Mounting position independent
