Product Overview

Sustainable Outdoor Illumination

This high-efficiency solar street light is designed for reliable outdoor illumination in various environments including streets, pathways, and parking areas. The integrated system combines a high-performance solar panel with an LED light source and smart motion sensing for energy-saving operation. Its durable, weather-resistant construction ensures longevity and consistent performance without the need for external power sources.

Technical Specifications

Power Output

8 W <small>Minimum Power</small>	20 W <small>Maximum Power</small>
--	---

Key Features

Integrated Solar Panel, Motion Sensor, Weather Resistant, Energy-Saving

Installation and Usage

Mounting Options

- Pole mounting
- Wall mounting

Ideal Applications

- Streets
- Pathways
- Parking lots
