System Overview

Advanced H.265+ video compression technology significantly reduces storage requirements by 60% to 90% compared to standard H.265.

Professional Surveillance Solution

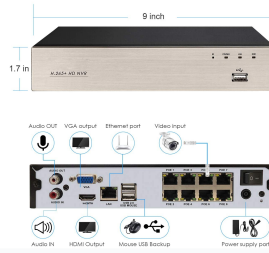

This 8-channel Power over Ethernet (POE) security system provides a high-definition 1080P monitoring solution for both indoor and outdoor environments. Featuring advanced H.265+ video compression, it significantly optimizes storage efficiency while maintaining sharp, smooth video quality. The system includes intelligent motion detection with instant app notifications, ensuring you stay informed of any activity in real-time.
