

8-Inch Submersible Borehole Water Pump

This 8-inch submersible borehole pump is designed for water supply from wells or reservoirs. It is suitable for domestic, civil, industrial, garden, and irrigation applications.

Product Overview

High-Performance Submersible Solution

This 8-inch submersible borehole pump is engineered for reliable water extraction across domestic, civil, and industrial applications. Designed for deep well installations, it features a robust hydraulic construction that ensures efficiency in demanding environments. With versatile motor options and adherence to international standards, it provides a dependable water supply solution for irrigation, reservoirs, and municipal systems.

Operating Conditions

Max Fluid Temperature	35 °C
Max Sand Content	0.25 %
Max Immersion Depth	100 m
Minimum Well Diameter	8 inches

Technical Specifications

Starting Methods

- Direct start (1 cable)
- Star-delta start (2 cables)

Standards Compliance

NEMA Standards • ISO 9906

Motor Type	Rewindable, Hermetically-Sealed
Voltage	380V - 415V
Frequency	50 Hz

Warranty & Support

Warranty Period	2 years
