

8-Inch Submersible Borehole Water Pump

This submersible borehole pump is designed for water supply from wells and reservoirs. It is suitable for domestic, civil, industrial, garden, and irrigation applications.

Product Overview

High-Performance Submersible Borehole Pump

This 8-inch submersible borehole pump is engineered for reliable water supply from deep wells and reservoirs. Designed for versatility, it supports a wide range of domestic, civil, and industrial applications, including irrigation and municipal water systems. Built to NEMA dimension standards, this unit offers robust performance with options for both rewirable and hermetically sealed motors.

Operating Conditions

Maximum Fluid Temperature	35 °C
Maximum Sand Content	0.25 %
Maximum Immersion Depth	100 m
Minimum Well Diameter	8 inch

Technical Specifications

Motor Options

- Rewindable motor
- Hermetically-Sealed motor

Starting Methods

- Direct start (1 cable)
- Star-delta start (2 cables)

Voltage	380V - 415V
Frequency	50 Hz
Certifications & Standards	NEMA, ISO 9906, CE, ISO 9001, RoHS

Warranty & Support

Warranty	2 years
