8-Inch Ultra-Thin Kerf Saw Blade

This 8-inch saw blade is designed with an ultra-thin kerf for smooth and precise cuts in wood. It features durable construction for extended life and efficient material removal.

Product Overview

Precision Cutting Performance

This 8-inch ultra-thin kerf carbide-tipped saw blade is engineered for high-precision cutting applications. Its specialized thin-kerf design minimizes material waste while ensuring smooth, clean edges, making it an excellent choice for professional woodworking. Built for longevity, this blade is compatible with standard table and miter saws for consistent efficiency.

Technical Specifications

Diameter	200 mm
Kerf Thickness	2.2 mm
Blade Material	Carbide Tipped, Laser Cut

Compatibility & Usage

Compatible Tools

- Table Saws
- Miter Saws
