Overview

Robust Agricultural Performance

This 80 HP wheel tractor is engineered for versatility and reliability across a wide range of farming operations, including plowing, tilling, and harvesting. Featuring a 4x4 drive system and a vertical, water-cooled engine, it provides consistent power and efficient fuel consumption. Designed for operator comfort and precise control, this machine is an ideal solution for small to medium-sized agricultural enterprises seeking dependable field performance.

Engine Performance

Key Engine Metrics

58.8 kw

Rated Power

2300 r/min

Rated RPM

52.5 kw

Max PTO Power

Engine Model

LR4B5-23

Rated Fuel Consumption

242 g/kw.h

Dimensions & Weight

Overall Dimensions (L x W x H)

4260 x 2170 x 2875 mm

Min. Operating Weight

3740 kg

Min. Ground Clearance

430 mm

Max Balance Weights (Front/Rear)

400/300 kg

Drivetrain & Mobility

Travel Speed Ranges

Direction	Speed Range
Forward	1.65-27.2 km/h
Reverse	4.3-12.8 km/h

Tire Specifications

- Front: 11.2-28
- Rear: 13.6-38

Drive Type	4x4
------------	-----

Min. Turning Radius	3.9 m
---------------------	-------

Hydraulics & PTO

Max. Lift Capacity	16.5 KN
--------------------	---------

Max. Traction Force	26.4 KN
---------------------	---------

PTO Rotation Speed Options	720, 540, 1000, 540/1000, 540/720
----------------------------	-----------------------------------
