

8.5 KVA Portable Diesel Generator

This is an 8.5 KVA portable diesel generator with air cooling. It features a wheeled design for easy transport.

Overview

Reliable Portable Power

The 8.5 KVA Portable Diesel Generator is a robust and dependable power solution engineered for consistent performance in demanding environments. Designed with portability in mind, this generator is easy to transport and set up, making it an ideal choice for construction sites, outdoor events, and emergency backup power. It features comprehensive safety mechanisms, including overload protection and low oil shutdown, ensuring safe and reliable operation whenever electricity is required.
