

8K HDMI 2.1 Cable

This HDMI 2.1 cable supports resolutions up to 8K at 60Hz and 4K at 120Hz. The durable braided cable ensures reliable connectivity for gaming and home theater.

Product Overview

Ultra-High Speed HDMI 2.1 Connectivity

This HDMI 2.1 cable is engineered for the next generation of high-bandwidth audio and video performance. Supporting resolutions up to 8K at 60Hz and 4K at 120Hz, it delivers an immersive viewing experience with dynamic HDR support. Designed for professional, commercial, and high-end consumer use, it features ultra-low EMI and robust bandwidth capabilities of 48Gbps.

Technical Performance

Bandwidth

48 Gbps

Bandwidth

Supported Resolutions

8K @ 60Hz, 4K @ 120Hz, Up to 10K

EMI Protection

Ultra-low electromagnetic interference

Gaming & Motion Features

Gaming Features

- Variable Refresh Rate (VRR) - Eliminates lag and tearing
- Fast Media Switching (QMS) - Prevents black screen delays
- Fast Frame Transfer (QFT) - Reduces latency for VR and gaming
- Auto Low Latency Mode (ALLM) - Optimizes latency settings

Audio & Compatibility

Audio Capabilities

Enhanced Audio Return Channel (eARC) support for advanced audio formats

Compatibility

Yes

Compatibility Details

Fully backward compatible with earlier versions of HDMI specifications
