

8mm Feeder Forming Assembly

This forming assembly is designed for 8mm feeders used in pick-and-place machines. It plays a crucial role in ensuring accurate and consistent component feeding during electronic assembly.

Product Overview

Precision Component Delivery

This 8mm feeder forming assembly is engineered for high-performance automated assembly equipment. It serves as a critical component within the feeder system, ensuring reliable and precise delivery of parts during the production process. Built for demanding industrial environments, it offers the durability and consistency required to maintain optimal manufacturing efficiency.

Technical Specifications

Component Type	8mm Feeder Forming Assembly
Part Number	J90650166C
Feeder Width	8 mm

Logistics

Package Quantity	15 pcs
Bin Location	A3
