Product Overview

Advanced Disinfection Solution

This specialized 8x4 disinfection fog cannon truck is engineered for large-scale sanitation operations across public, industrial, and agricultural environments. Built on a robust chassis, it features a high-capacity corrosion-resistant tank and an advanced fog cannon system capable of adjustable spray patterns and droplet sizes. The vehicle combines heavy-duty performance with user-friendly controls to ensure efficient, reliable, and thorough disinfection coverage.

Vehicle Specifications

Drivetrain	8x4
Chassis Design	Heavy-duty, robust chassis

Disinfection System

Fog Cannon Capabilities	Adjustable angle, Adjustable spray patterns, Variable droplet sizes
Tank Construction	Corrosion-resistant

Operational Details

Ideal Applications

- Public spaces
- Industrial sites
- Agricultural settings
- Urban areas

Operational Features

User-friendly controls • Ergonomic design • High-performance engine
