

9-Inch Band Saw for Wood and Metal

This band saw is a versatile cutting tool designed for woodworking and metalworking. It features a 9-inch blade capacity and a 230V/50Hz, 300W motor.

Overview

Versatile Cutting Performance

The MJ9 9-inch band saw is engineered for precision and versatility, suitable for both woodworking and metalworking tasks. Featuring a robust 300W motor and a generous 230mm throat capacity, it handles materials up to 92mm thick with ease. The adjustable table allows for angled cuts up to 45 degrees, making it a reliable solution for professional workshops and hobbyists alike.
