Overview

Robust Agricultural Performance

This versatile wheeled tractor series is engineered for high reliability and strong power in demanding field conditions. Featuring a 16F+8R transmission, it provides excellent speed matching and agronomic adaptability for tasks like plowing, tilling, and heavy lifting. Designed with operator comfort in mind, it includes an ergonomic cabin, side-mounted controls, and optional air-conditioning to ensure productivity during long shifts.

Technical Specifications

Drive & Dimensions

| Feature | Specification |
|------------------------|-----------------------|
| Drive Type | 4x4 Wheel Drive |
| Dimensions (L x W x H) | 4382 x 2083 x 2935 mm |
| Wheelbase | 2193.5 mm |
| Min. Clearance | 415 mm |
| Weight | 3550 - 3800 kg |

Transmission System

- 16 Forward + 8 Reverse gears
- Double-acting clutch
- Gear sleeve shift
- Side-mounted operating mechanism

Operational Features

Operator Station

Side-set control • Ergonomic design • Optional air-conditioning • High visibility

Hydraulic & Braking

Double oil cylinder pressure lifting, Full hydraulic steering, Oil bath disc brakes, Type 2 post-three-point suspension
