

90 Degree Elbow Pipe Fitting

This elbow fitting changes the direction of flow by 90 degrees. It has a smooth outline and sanitary construction.

Product Overview

High-Performance 90 Degree Elbows

These 90-degree elbow pipe fittings are designed for seamless flow redirection in critical piping systems. Crafted from high-quality stainless steel, they ensure durability and hygiene across various industrial applications. Available in multiple connection modes and standards, these fittings are engineered to meet the rigorous demands of the pharmaceutical, food, and chemical industries.

Technical Specifications

Material Quality

SUS304 • SUS316L

Connection Modes

- Clamped
- Welded
- Threaded
- Flanged

Size Range

1 inch, 4 inch, DN25, DN100

Supported Standards

ISO, DIN, 3A, SMS, IDF

Surface Finish

Polishing Specifications

Finish Type	Roughness (Ra)
Mirror polish	0.5-0.8um
Semi-polished	1.6-3.2um

Applications

Suitable Industries

- Pharmacy
- Beer & Beverage
- Food & Dairy
- Cosmetic
- Chemical Industry
