Product Overview

Reliable Power Generation

This high-performance gasoline generator is engineered to provide dependable electrical power for both professional and residential applications. Featuring a robust frame design with integrated wheels and handles, this unit ensures easy portability and protection during transport. With a 9000W rated output and advanced safety features including circuit breakers and warning indicators, it is an ideal solution for remote locations, backup power, or powering heavy-duty tools.

Design Features

Portable Frame, Wheel Kit, Handle Included, Circuit Breaker Protection
