Product Overview

High-Performance 9V Power Source

This premium alkaline battery is engineered for reliability and high-density power output, suitable for a wide range of electronic devices. It features advanced sealing technology to ensure leak-proof operation throughout its lifespan. Designed for both high and low drain applications, this battery offers consistent performance and long-lasting energy.

Technical Specifications

Material Composition

Mercury-Free • Cadmium-Free • Lead-Free

Battery Type	9V Alkaline (6LR61 Block)
Shelf Life	7 years
Leak-Proof Design	Yes
Compliance	Directive 2006/66/EC, Directive 94/62/EC

Performance Metrics

Key Performance Indicators

8 x longer
Capacity vs Heavy Duty

7 years
Storage Life
