

9V Carbon-Zinc Battery

This is a 9V carbon-zinc battery commonly used in various electronic devices. The battery is designed for general-purpose applications and offers a cost-effective power solution.

Overview

Reliable 9V Power Solution

This 9V carbon-zinc battery is a cost-effective power source designed for general-purpose, low-drain applications. Featuring a mercury-free composition, it offers a safe and reliable energy solution for everyday electronics. Its robust steel packaging ensures durability during storage and transport, making it an ideal choice for bulk sourcing.

Technical Specifications

Nominal Voltage

9 V

Nominal Voltage

Battery Chemistry

Carbon-Zinc

Model Number

6F22 / MP1L-6F22

Logistics & Packaging

Packaging Configuration

Packaging Level	Quantity
Sales Package	1 pc (Shrink)
Small Box	10 pcs
Bulk Carton	500 pcs

Weight Specifications

- Net Weight: 17 kg
- Gross Weight: 18 kg

Carton Dimensions

27.5 x 27.5 x 20 cm

Features

Key Features

Mercury-Free, Steel Casing, Non-Rechargeable, General Purpose
