

9V General Purpose Battery

This is a general purpose 9V battery suitable for various electronic devices. This dry cell battery provides reliable power for everyday use.

Product Overview

Reliable 9V Power Solution

This general-purpose 9V dry cell battery is engineered to provide consistent and reliable energy for a variety of everyday electronic devices. Designed specifically for low-drain applications, it ensures steady performance for essential equipment. It serves as a dependable power source for household and portable electronics.

Technical Specifications

Voltage	9 V
Battery Type	Dry Cell
Model Identifier	GLRG1

Applications

Common Applications

- Smoke detectors
- Toys
- Portable electronic equipment
- Low-drain devices

Features

Best For

Low-drain devices • General purpose
