Product Overview

High-Performance Rechargeable Power

This high-capacity Nickel-Metal Hydride (Ni-MH) AA battery is engineered for reliable, long-lasting power in a variety of electronic devices. Designed as a sustainable and cost-effective alternative to disposable alkaline batteries, it offers excellent runtime and consistent performance. Its robust construction ensures durability, while the low self-discharge rate provides an extended shelf life for readiness when you need it most.

Technical Specifications

Nominal Voltage	1.2 V
Typical Capacity	2300 mAh
Chemistry	Nickel-Metal Hydride (Ni-MH)
Battery Size	AA

Performance Features

Performance Highlights

2300 mAh
Capacity

1.2 V
Voltage

Key Benefits

- Low self-discharge rate
- Environmentally friendly
- Cost-effective
- Compatible with USB chargers

Ideal Applications

Digital Cameras, Remote Controls, Toys, Portable Audio, Gaming Devices
