

AA Alkaline Batteries for Electronics

These AA alkaline batteries offer a reliable power source for everyday devices. They are ideal for use in remote controls, toys, flashlights, and other household electronics, ensuring consistent performance and extended device runtime.

Product Overview

Reliable Power for Everyday Electronics

These AA alkaline batteries are engineered to provide consistent and reliable power for a wide range of household devices. Featuring a stable voltage output, they ensure extended runtime and dependable performance for your electronics. Designed for optimal durability, these batteries are an essential power solution for daily use.

Technical Specifications

Battery Size	AA (LR6 AM3)
Voltage	1.5 V

Applications

Recommended Uses	Remote Controls, Toys, Flashlights, Household Electronics
