

AA Batteries

These are standard AA batteries designed for various electronic devices. They provide 1.5V of power and are mercury-free.

Product Overview

Reliable Power for Everyday Devices

These heavy-duty AA batteries are designed to provide consistent 1.5V power for a wide range of electronic devices. Engineered for reliability, they offer a stable energy output suitable for standard consumer and professional electronics. The mercury-free composition ensures environmentally conscious usage, meeting modern safety and disposal standards.

Technical Details

Environmental Compliance

Mercury-Free • No Mercury Added

Available Models

- R6P/SBP
- R6P/1BP

Battery Size	AA (R6P)
Rated Voltage	1.5 V
