Product Overview

Reliable AA Zinc Carbon Power

These AA R6P zinc carbon batteries provide a dependable 1.5V power source for general-purpose electronic devices. Designed with an improved leakage-proof characteristic, they offer enhanced protection for your equipment compared to standard alternatives. With 0.00% mercury and cadmium content, these batteries are an environmentally conscious choice for high-volume B2B sourcing.

Technical Specifications

Key Performance Metrics

| | | |
|---------------------------------|-----------------------------------|------------------------------|
| 1.5 V Nominal Voltage | 100 mins Discharge Time | 3 years Shelf Life |
|---------------------------------|-----------------------------------|------------------------------|

| | |
|---------------------------|-------------------|
| Battery Type | Zinc Carbon (R6P) |
| Size Standard | AA |
| Leakage Protection | Yes |

Compliance & Safety

Environmental Features

- 0.00% Mercury content
- 0.00% Cadmium content
- Lead-free (Pb) composition

| | |
|-----------------------|------------------------------------|
| Certifications | SGS, MSDS, 2006-66-EC, ISO9001, CE |
|-----------------------|------------------------------------|

Logistics & Packaging

| | |
|------------------|---------------------------|
| Retail Packaging | 4 Pieces per Blister Card |
| Jacket Material | PVC / Aluminium |
| Carton Size | 51 x 27.5 x 27.5 cm |
| Gross Weight | 24.5 kg |

Usage Instructions

Safety & Handling

- Respect polarities (+/-)
- Do not recharge
- Store in a cool, dry place
- Do not expose to high temperatures or fire
- Do not mix new and used batteries
