Product Overview

High-Performance Abrasive Cloth

This abrasive cloth roll is engineered with specially treated cube-shaped abrasives for superior grinding efficiency and extended lifespan. Utilizing a durable resin-over-resin bonding system on a high-quality JWT cloth backing, it delivers consistent, uniform polishing scratch patterns. It is an ideal solution for converting into abrasive belts for demanding applications on metal, alloys, stainless steel, and other high-hardness materials.

Technical Specifications

Grit Range	D3 - D45
Abrasive Grain Shape	Cube shape
Bonding System	Resin over resin
Backing Material	JWT Cloth

Applications

Primary Usage

Abrasive Belt Conversion • Grinding • Polishing

Suitable Materials	Metal, Alloy, Stainless Steel, High Hardness Materials
