

Abrasive Cutting Disc, 80 m/s Max Speed

Abrasive cutting disc designed for industrial applications. It is suitable for cutting various materials with a maximum operating speed of 80 m/s.

Overview

Industrial Abrasive Cutting Disc

This high-performance abrasive cutting disc is engineered for demanding industrial applications, offering reliable and efficient cutting capabilities across a variety of materials. Designed with a maximum operating speed of 80 m/s, it ensures consistent results while maintaining structural integrity. The disc is manufactured to meet rigorous safety standards, providing professional users with a dependable tool for precision cutting tasks.

Technical Specifications

Maximum Operating Speed

80 m/s

Max Speed

Dimensions	133 x 1.2 x 22.23 mm
Specification Code	A 60 S BF

Compliance & Standards

Safety Standards	EN12413
