

Abrasive Flap Disc for Grinding and Finishing

Abrasive flap disc designed for grinding and finishing applications. It features overlapping abrasive flaps that provide a smooth, consistent finish and is suitable for use on various materials including metal, wood, and plastic.

Product Overview

Professional Grade Flap Disc

This high-quality abrasive flap disc is engineered for versatile grinding and finishing applications. Featuring overlapping abrasive flaps, it ensures a smooth and consistent finish across various surfaces including metal, wood, and plastic. It is an ideal solution for tasks such as weld blending, deburring, and general surface preparation, offering extended tool life and efficient material removal.

Technical Specifications

Primary Applications

- Weld blending
- Deburring
- Surface preparation
- Grinding
- Finishing

Key Features

Overlapping flaps • Consistent finish • High-quality abrasive grains • Extended life

Suitable Materials

Metal, Wood, Plastic
