

Abrasive Sandpaper for Wood and Metal Finishing

This abrasive sandpaper is designed for sanding and finishing applications on wood, metal, plastic, and painted surfaces. The durable backing material resists tearing and ensures consistent performance for both hand and machine sanding.

Product Overview

Professional Abrasive Solution

This high-quality abrasive paper is engineered for versatile sanding and finishing applications across wood, metal, plastic, and painted surfaces. Designed to provide a consistent and even scratch pattern, it ensures professional results for both hand and machine sanding tasks. The durable backing material is built to resist tearing, offering reliable, long-lasting performance in various workshop environments.

Technical Specifications

Sheet Dimensions	230 x 280 mm
Abrasive Material	Aluminum Oxide
Available Grit Range	80#, 100#, 120#, 150#, 180#, 240#, 320#

Application

Compatible Materials

- Wood
- Metal
- Plastic
- Painted Surfaces

Usage Method

Hand Sanding • Machine Sanding
