

AC Axial Fan YWF200

This AC axial fan features a compact structure and professional design. It provides efficient, low-noise operation and long service life.

Product Overview

High-Performance AC Axial Fan

The YWF200 is a robust AC axial fan engineered for efficient ventilation and cooling in industrial applications. Featuring a 200mm blade diameter and a protective wire guard, it is designed for reliability in HVAC and refrigeration systems. With maintenance-free ball bearings and a continuous operation mode, this fan offers a long service life, low noise operation, and easy installation.

Key Features

Product Advantages

- Compact structure
- Professional design
- Fine process control
- Easy installation
- Efficient and low noise
- Long service life

Technical Specifications

Protection Rating

IP54 • IP44

Blade Diameter	200 mm
Number of Blades	5
Insulation Class	B or F
Mode of Operation	Continuous operation (S1)
Ambient Temperature Range	-30 to 60

Construction & Materials

Component Materials

Component	Material
Guard Grille	Steel (phosphated and black plastic coated)
Wall Ring	Sheet steel (re-galvanised and black plastic coated)
Blades	Sheet steel
Rotor	Encased in aluminium

Compliance

Certifications

UL, CE, CCC
