Overview

Professional AC Isolator Disconnect Switch

This high-quality AC isolator switch is engineered for reliable power transmission and distribution systems. Designed to ensure safety and efficient maintenance, it provides a robust disconnect function for electrical circuits. The unit supports versatile configurations and voltage ratings, making it a dependable choice for various industrial and residential electrical installations.

Electrical Specifications

Voltage Compatibility

- 230V
- 400V

Available Current Ratings

32A, 40A, 63A, 100A

Operating Frequency

50 Hz

Configuration

Available Pole Configurations

1P • 2P • 3P • 4P

Key Performance Metrics

40 A

Standard Current Rating

400 V

Max Voltage
