

AC/DC LCD TIG Welding Machine

This AC/DC LCD TIG welding machine is designed for diverse welding tasks. It features an LCD interface for user-friendly mode selection and parameter adjustments, with AC/DC capability for welding both ferrous and non-ferrous metals.

Product Overview

Professional AC/DC TIG Welding Solution

The TIG-200L is a high-performance AC/DC welding machine designed for versatility and precision across various metal types. Featuring a 3.5-inch colored LCD screen and a patented control system, it provides intuitive operation and advanced parameter management. With IGBT inverter technology and comprehensive wave control, this machine delivers high-quality welding results suitable for professional applications.

Technical Specifications

Inverter Technology	IGBT
Display	3.5 inch colored LCD
Welding Modes	TIG AC, TIG DC, HF-TIG, LIFT-TIG, MMA, Synergy
AC Waveform Options	6
Job Memories	9
Supported Languages	9

Welding Control

Adjustable TIG Cycle

- Pre-Flow
- Start Current
- Up-Slope
- Peak Current
- Base Current
- Down-Slope
- Crater
- Post-Flow

AC Mode Adjustments

- AC Frequency
- AC Balance

Included Accessories

Package Contents

Item	Specification
WP26 TIG Torch	4m length
Earth Clamp	2m length
Europe Plug	Æ50 (2cs)
Allen Key	Æ5 (1c)
