Product Overview

Professional Hedge Trimming Solution

This adjustable hedge shear is designed for efficient and precise shrub shaping and topiary maintenance. Featuring durable carbon steel blades with a protective coating and shock-absorbing bumpers, it minimizes fatigue during extended use. The extendable aluminum handles provide versatile reach and leverage, making it a reliable tool for professional landscaping and garden maintenance.

Technical Specifications

Blade Coating

Teflon Coated

Blade Material

65Mn Carbon Steel

Blade Thickness

5 mm

Blade Hardness

HRC 53-56

Dimensions & Adjustability

Length Range

68 cm

Standard Length

104 cm

Extended Length

Adjustment Mechanism

6-step retractable button (65mm per step)

Design & Ergonomics

Handle Material

Aluminum Alloy

Grip Type

TRP Coated Non-Slip

Key Features

Shock Absorbing Bumpers, Adjustable Blade Tension, Wavy Blade Design
