

Adjustable Blade LED Ceiling Light

This LED lighting fixture features three adjustable blades. It is designed for energy efficiency and provides bright illumination for indoor applications.

Product Overview

Versatile Adjustable LED Ceiling Light

This innovative LED ceiling light features a unique three-blade design that allows for manual adjustment to direct light as needed. Engineered for energy efficiency, it provides bright and reliable illumination for various indoor environments. The compact, foldable construction ensures easy storage and transportation, while the use of high-quality materials guarantees long-lasting durability for professional applications.

Technical Details

Model Identification	LED-11
Design Features	Foldable Blades, Adjustable, Compact, Energy Efficient

Performance

Key Performance Metrics

3 units

Number of Blades

Application

Suitable Applications

- Indoor Residential
- Commercial Lighting
- Task Lighting
