Product Overview

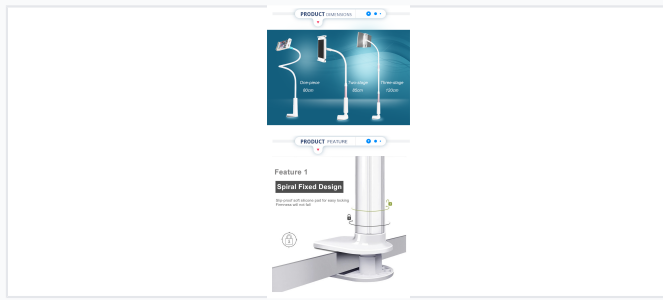

Emancipate your hands with flexible, hands-free viewing.

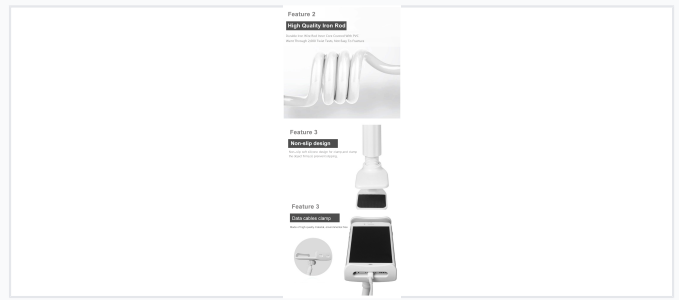

Versatile Hands-Free Viewing

This multifunctional gooseneck holder provides a stable and flexible solution for hands-free device usage. Designed for both tablets and phones, it easily attaches to desks, tables, or beds, offering 360-degree rotation for optimal viewing angles. Built with a durable iron wire core and non-slip silicone padding, it ensures your devices remain secure and protected while you work, read, or watch media.

Technical Specifications

Spiral fixed design with slip-proof silicone pad ensures firmness.
