Product Overview

Professional Face and Head Protection Set

This dual-component safety set combines a durable, high-impact face shield with a high-visibility industrial safety helmet. Engineered for professional construction, manufacturing, and maintenance environments, the system provides comprehensive protection against flying debris and physical hazards. The adjustable design ensures a secure and comfortable fit for users of various head sizes, promoting all-day wearability and compliance.

Technical Specifications

Face Shield Model	SSM9021
Safety Helmet Model	SSM9001
Shield Material	Polycarbonate
Helmet Color	High-visibility Yellow

Features

Key Benefits

- Adjustable headband for secure fit
- High-impact resistant polycarbonate lens
- Excellent visibility
- Durable construction for industrial use
- Ergonomic design for long-duration tasks

Applications

Construction, Manufacturing, Maintenance, Industrial Work
