Product Overview

Industrial Storage Excellence

This adjustable heavy-duty warehouse racking is engineered for maximum durability and space optimization. Constructed from high-quality cold-rolled steel, the system offers robust support for diverse industrial storage requirements. Its modular and customizable design ensures seamless integration into warehouses, distribution centers, and material handling environments.

Technical Specifications

Customization

- Customizable sizes
- Adjustable layer configuration
- Variable material thickness
- Customized color schemes

Material	High Quality Cold-rolled Steel
----------	--------------------------------

Available Colors	Orange, Blue, Silver Grey
