Product Overview

Professional Grade Lifting Support

This adjustable height jack stand is engineered for stability and heavy-duty vehicle support. Featuring a robust stamped steel body and a single-piece ductile iron ratchet bar, it offers reliable performance across multiple height positions. The design includes a reinforced bottom support and a lever-operated handle for efficient and safe height adjustments in automotive maintenance environments.

Construction & Design

Design Features

- Auto-welded body construction
- Reinforced bottom support
- Lever-design height adjustment handle
- Single-piece casted ratchet bar

Key Materials

Stamped Steel, Ductile Iron
