Overview

Advanced Circulation Fan

This adjustable height circulation fan is engineered for superior indoor air quality and comfort. Featuring a specialized fluid-shape design, it delivers a softer, more natural breeze compared to standard fans. With its high-performance brushless motor, the unit offers stepless speed control and ultra-quiet operation, making it ideal for both active living spaces and quiet sleep environments.

Performance

Performance Highlights

360 °

Rotation Angle

15 m

Max Airflow Distance

Noise Level (High Speed)

59 dB(A)

Max Wind Distance

15 m

Technical Specifications

Motor Type	Brushless DC Motor
Speed Control	Stepless

Power & Battery

Battery Specifications	18V, 2.6AH, Cordless
