

Adjustable Height Oscillating Stand Fan

This stand fan has three wind settings: strong, medium, and soft, and a 7.5-hour timer. It features a 20cm adjustable height, a wide oscillating head, and a 43cm diameter grill.

Product Overview

Professional Air Circulation Solution

This adjustable height oscillating stand fan is designed to provide efficient air circulation and ventilation for both office and home environments. It features flexible height settings and a wide-angle oscillation function to ensure comprehensive coverage throughout any room. Built with safety in mind, it includes a robust protective grill to prevent accidental contact with the blades.
