

Adjustable Height Pedestal Fan

This standing fan is designed for indoor cooling and air circulation. It features an adjustable stand, a circular fan head with three blades, and a protective grill.

Product Overview

Cooling Performance and Design

This 16-inch pedestal fan is designed to deliver reliable air circulation for indoor environments. Featuring three large blades, it provides a consistent, cooling breeze suitable for homes or offices. The unit combines a simple, effective design with a stable cross-base construction for safety and ease of use.
