

Adjustable Height Pedestal Fan with Air Purification

This electric fan provides adjustable airflow for personal cooling and ventilation. It features a multi-blade fan head enclosed in a safety cage, an adjustable height stand, and a stable circular base.

Product Overview

Advanced Air Circulation and Purification

This adjustable pedestal fan combines effective air circulation with integrated air purification technology. Designed with a streamlined, modern aesthetic, it features a photocatalyst system to help refresh indoor air quality while providing cooling. With adjustable settings and safety-focused engineering, including motor overload protection, it offers a reliable and convenient solution for various environments.

Technical Details

Model Number	FS40-2
Origin	Shunde

Performance

Fan Speeds	3 levels
Timer Duration	120 minutes

Features

Key Features	Air Purification, Photocatalyst, Motor Overload Protection, Vitamin Air Absorption
--------------	--

Design and Assembly

Assembly Features

- Divided body trim ring
- Automatic hoop for easy loading/unloading
- Chassis lock nut structure
- Plug-and-play setup
