

Adjustable LED Flood Light with Tripod

This LED flood light provides powerful and energy-efficient illumination for various applications. Featuring two adjustable light heads, it offers a wide beam angle and high lumen output.

Overview

Professional Adjustable LED Flood Light

This high-performance LED flood light features a versatile telescopic tripod stand, making it an ideal lighting solution for construction sites, workshops, and outdoor events. Equipped with dual 20W light heads, it provides reliable and energy-efficient illumination across a wide area. Its robust construction, utilizing die-casting aluminium and a durable glass diffuser, ensures stability and longevity in demanding working environments.

Technical Specifications

Power Output

40 W

Total Power

80 lm/w

Luminous Efficacy

Rated Voltage	110V - 230V
Color Temperature (CCT)	2700K - 6500K
Color Rendering Index (CRI)	80

Construction & Design

Available Colors

Black • White

Materials	Die-casting Aluminium, Glass Diffuser
