

Adjustable Oscillating Garden Sprinkler

This oscillating sprinkler provides adjustable spray patterns for efficient garden irrigation. It features a durable aluminum frame and multiple brass nozzles for even water distribution.

Product Overview

Professional Oscillating Garden Sprinkler

This adjustable oscillating garden sprinkler is designed for precise lawn and garden irrigation. Featuring a durable aluminum frame paired with robust yellow plastic components, it ensures long-term stability and resistance to the elements. With multiple integrated brass nozzles, the unit provides consistent and even water distribution across the target area.
