

Adjustable Pet Restraint Leash for Vehicle Safety

This pet leash is designed for use in vehicles, featuring a seatbelt buckle attachment for secure restraint. Constructed from durable black nylon webbing, it includes adjustable length capabilities via a plastic slide buckle.

Product Overview

Vehicle Safety Restraint

This adjustable pet restraint leash is engineered to keep your pet safely secured within a vehicle during travel. Constructed from high-quality, durable nylon webbing, it provides the necessary toughness for daily use while ensuring longevity. The design allows your dog to sit, stand, or lie down comfortably, preventing driver distraction and enhancing overall road safety for both the pet and passengers.
