Product Overview

Professional lopping shear with an adjustable range from 27 to 41 inches for maximum reach.

Professional Telescopic Lopping Shear

This professional-grade lopping shear is designed for heavy-duty gardening tasks, featuring a high-carbon steel blade and a versatile telescopic handle. It effortlessly cuts through branches up to 2 inches (4cm) in diameter, utilizing powerful leverage to reduce user fatigue. The adjustable length and ergonomic grips make it an essential tool for navigating high limbs and maintaining landscapes with precision.
