

Adjustable Temperature Hot Air Gun

This hot air gun is a versatile tool for various applications, including removing paint, bending plastics, and shrinking heat shrink tubing. It features adjustable temperature settings to suit different materials and tasks.

Overview

Professional Performance Hot Air Gun

This 2000W hot air gun is designed for versatility and reliability in professional and DIY applications. Featuring adjustable temperature settings and dual airflow modes, it provides precise control for tasks ranging from paint removal and plastic bending to heat shrinking and thawing. Its ergonomic construction ensures comfortable handling during extended use, while the integrated stand facilitates safe operation and cooling.

Technical Specifications

Power & Performance

2000 W

Max Power

500

Max Temperature

500 L/min

Max Air Flow

Voltage Compatibility

230V, 110V

Frequency

50Hz, 60Hz

Logistics

Packaging & Weight

Metric	Value
Units per Carton	10 PCS
Net Weight	9 kg
Gross Weight	10 kg
Carton Dimensions	460*280*565 mm
