Adjustable Time Delay Relay

This time delay relay is designed for a variety of industrial and automation applications. It features a clear connection diagram for easy wiring and supports both DC and AC power input.

Overview

Reliable Industrial Timing Solution

The AH3-3 is a compact and reliable time delay relay engineered specifically for industrial and automation control systems. Featuring precise rotary dial adjustments, it allows for accurate timing control in seconds. Its versatile design supports both AC and DC power inputs, ensuring compatibility with a wide range of electrical configurations.

Technical Specifications

Model	AH3-3
Contact Rating	AC 220V 5A
Power Factor	1
Mounting Style	Panel Mount
Power Input Compatibility	AC, DC
