

Adjustable Wall Wash Light Fixture GZ10 230V/240V

Adjustable wall wash lighting fixture designed for GZ10 base bulbs. It operates on 230V/240V power and is suitable for accent lighting and wall washing applications.

Product Overview

Adjustable Wall Wash Solution

This adjustable wall wash lighting fixture is engineered for versatility in both residential and commercial environments. Designed to accommodate GZ10 base bulbs, it operates seamlessly on standard 230V/240V power supplies. Its adjustable mechanism allows for precise control over light direction, making it an ideal choice for accent lighting and creating dramatic wall washing effects.
