

Agricultural Soil Rake

This agricultural rake is designed for efficient soil preparation and cultivation. It features a durable frame and tines to break up clumps, level the ground, and remove debris.

Product Overview

Professional Agricultural Soil Rake

The CRM002-14FL is a robust agricultural rake engineered for efficient soil preparation and cultivation. It effectively breaks up soil clumps, levels ground surfaces, and removes debris to optimize seedbed conditions for improved crop yields. With adjustable settings for customized operation, this sturdy implement ensures reliable performance and longevity in demanding agricultural environments.

Technical Details

Key Features

- Durable frame and tine construction
- Adjustable settings for soil customization
- Compatible with various tractors
- Designed for optimal seedbed tilth

Model Identifier	CRM002-14FL
Primary Applications	Soil Preparation, Cultivation, Debris Removal, Seedbed Optimization
