

Agricultural Wheel Tractor with Enclosed Cab

This wheel tractor is designed for agricultural applications such as plowing, tilling, and hauling. It features a fully enclosed cab that provides operator comfort and protection from the elements.

Overview

Designed for Versatility and Comfort

This agricultural wheel tractor is engineered for small to medium-sized farming operations, offering a reliable solution for plowing, tilling, and hauling tasks. It features a fully enclosed cab that ensures operator comfort and protection from the elements during long working hours. Equipped with a robust diesel engine and a versatile transmission system, it provides the necessary power and control for a wide range of field activities.

Technical Specifications

Model	950
Engine Type	Diesel
Transmission	Multiple forward and reverse gears
