

Air Blow Duster Gun with Short Nozzle

This air blow duster gun features a light trigger pull and stable wind output, adjustable for different supply needs. It has a short nozzle and includes an RG-7-1-Q fast joint air connector.

Product Overview

Professional Air Blow Duster Gun

This versatile air blow duster gun is designed for efficient dust and debris removal in industrial and workshop environments. Featuring a robust metal construction, it delivers a powerful and focused stream of air for effective cleaning of machinery and hard-to-reach areas. The ergonomic design ensures a comfortable grip and precise control for extended use.

Technical Specifications

Model Type	RG-7
Nozzle Diameter	2 mm
Pressure Rating	3.5 kgf/cm ²

Performance Metrics

Key Performance Indicators

0.34 MPa
Air Pressure

145 l/min
Air Consumption

170 g
Weight
